Join us to learn how to make walking and biking safer! This workshop will teach you ideas and best practices for making walking and biking safer. Together with your fellow residents, you will identify priorities to share with the City on how to make walking and biking safer for seniors, youth, parents, people with disabilities, and all other residents.

Please wear comfortable shoes for our walk during the workshop!

Refreshments generously provided by the Automobile Club of Southern California.

Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
