DECLARATION OF CONTRACTOR AND SUBCONTRACTORS

Section 110.64 of the San Gabriel Municipal Code requires all contractors to obtain a Business License from the City before engaging in any business in the City.

It is the responsibility of the **Permittee** to provide a list of all contractors with whom they have contracted and see that they have business licenses with the City of San Gabriel.

To receive the final approval of the permit, the permittee must submit this declaration to the Building Division. The Finance Department will then verify that all Contractors and Sub-Contractors have appropriate City Business Licenses in order to obtain project clearance. The final inspection approval of building permit(s) or the issuance of a Certificate of Occupancy may be delayed until all the business license fees are paid.
